9TH ANNUAL MEETING OF THE

American Society of Functional Neuroradiology

March 18 – 20, 2015
Loews Ventana Canyon • Tucson, AZ

17.25 AMA PRA Category 1 Credit(s)™

Optional BOLD Functional MRI Hands On Workshop • March 21, 2015
6.5 AMA PRA Category 1 Credit(s)™ • Workshop attendance is limited to first 20 Registrants
The 9th Annual Meeting of the American Society of Functional Neuroradiology (ASFNR) will be held March 18 - 20, 2015 at the Loews Ventana Canyon Resort in Tucson, Arizona. The serene setting of the Sonoran Desert noted for the famous Saguaro cactus and the award-winning architectural design of the Ventana Resort offer a splendid venue for the Annual Meeting. Each day of the scientific program has a different emphasis, with the first day focused on “bread and butter” clinical implementation of fMRI, fiber tracking, perfusion imaging, and permeability mapping, ending with focus sessions on tumor and stroke imaging. Highlights of day two include Haughton Lecturer, Bruce Rosen, who will provide his vision on the future directions of functional imaging, followed by keynote lectures on the origin of the BOLD signal. Day three will focus on emerging techniques including a new session on machine learning, a form of artificial intelligence where data is used to train classifiers for maximizing testing accuracy. The meeting will close with a lively session on one of the hottest topics in neuroimaging, i.e. concussion. Although officially over, the meeting transitions nicely to Scott Faro MD’s popular “hands-on” fMRI workshop Saturday morning.

I would like to emphasize that there is great content in this meeting for everyone interested in functional neuroimaging including neuroradiologists, neurologists, neurosurgeons, brain mapping scientists, cognitive neuroscientists, physicists, fellows, residents, doctoral and postdoctoral students, engineers and ancillary staff.

Finally, I hope to convince to you take the time to explore the “ventana” or “window” to the soul of the Sonoran desert as the resort is placed in the heart of the Catalina mountains. Hike into the canyon among the magnificent cacti or just stroll a short distance to a breath-taking 80-foot waterfall within minutes of the resort. For golfers there are two Tom Fazio-designed PGA golf courses right on the property. In addition, the resort is replete with amenities including a terrific spa and tennis center, fitness center, and nearby riding trails. There is also an opportunity to stargaze in the dry cool desert air with a professional stargazer. Great restaurants and shopping are nearby with complementary resort shuttle service.

I am anticipating an exceptional scientific, educational, social, and recreational event in an inspiring environment so come join us for the ASFNR 9th Annual Meeting!

Sincerely,
David J. Mikulis, M.D., FRCP(C)
ASFNR President and Program Chair

About The Meeting
The American Society of Functional Neuroradiology is proud to present its 9th Annual Meeting. This 2 ½ day meeting will feature a series of focused sessions with didactic lectures and panel discussions by nationally and internationally recognized experts as well as original research in the form of oral and poster presentations.

A broad range of cutting-edge topics in functional neuroradiology, including BOLD functional brain mapping, diffusion imaging, diffusion tensor imaging, perfusion and permeability imaging will be featured. The scientific program will consist of lectures and panel discussions aimed at updating attendees on the current status of functional and physiologic imaging techniques, current controversies in the field, and promising new techniques. A review of cutting-edge special topics including resting state fMRI, advanced diffusion imaging, stroke imaging, concussion imaging, connectomics, tumor radiomics, the origins of the BOLD signal, MR imaging of oxygen extraction, imaging of neurovascular coupling, emerging functional techniques, and functional data analysis using machine learning methods will also be presented.

On Saturday, March 21, 2015, there will be a “Hands-on Workshop” for BOLD fMRI (10AM – 4PM). The session will include a physics and clinical application review and detailed, hands on, image processing of BOLD fMRI data of language and the sensory motor cortex. Attendance is limited to the first 20 registrants.

Target Audience
This CME activity is intended to educate anyone interested in functional neuroimaging including neuroradiologists, neurologists, neurosurgeons, brain mapping scientists, cognitive neuroscientists, physicists, fellows, residents, doctoral and postdoctoral students, engineers and ancillary staff.

Educational Symposia
Scientific Sponsor
Educational Symposia

Educational Objectives
Attendees should, at the completion of this meeting, be able to:

• Describe the underlying physical basis of advanced functional and physiological imaging techniques such as BOLD and resting state fMRI, Diffusion-weighted Imaging, Diffusion Tensor Imaging, Dynamic Susceptibility and Dynamic Contrast-enhanced MRI, Arterial Spin Labeling, Susceptibility-weighted Imaging, MR Spectroscopy, PET and MEG Imaging.

• Explain the clinical applications and limitations of advanced functional and physiological imaging techniques.

• Discuss how to effectively integrate functional imaging techniques into clinical practice with awareness of pertinent economic and logistical issues.

No special educational preparation is required for this CME activity.

Accreditation
Physicians: This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Educational Symposia and the American Society of Functional Neuroradiology. Educational Symposia is accredited by the ACCME to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 17.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Technologists: This program has been submitted to the American Society of Radiologic Technologists. The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit http://asfnr.edusymp.com or call 1-800-338-5901 regarding the availability of Category A CE credit.

Registration Information
Payment of the registration fee includes all course materials, including a comprehensive course syllabus, welcome reception, daily continental breakfasts, and coffee breaks. Early registration is strongly suggested. There will be a $50 surcharge for anyone registering after February 13, 2015.

Cancellations must be received in writing. A $75 processing fee will be applied to all cancellations. Refunds requested in writing prior to February 13, 2015 will be issued for the amount of registration paid, less the $75 processing fee. No refunds will be made on or after that date.
Optional BOLD Functional MRI Hands-on Workshop • March 21, 2015

About This Workshop
This workshop will provide a practical step-by-step post-processing of BOLD fMRI studies with SPM8 software and data presentation.

Target Audience
This CME activity is intended to educate neuroradiologists, neuroradiology fellows, physicists, clinical psychologists and MR technologists. The workshop is intended for those with beginner to intermediate level fMRI experience.

Educational Objectives
Attendees should, at the completion of this workshop, be able to perform the following:

• Preprocessing of BOLD fMRI Data
• Realignement/Coregistration
• Spatial Normalization
• Smoothing
• Single Subject Analysis
• Model Specification
• Model Estimation
• Visualization of the BOLD data

Accreditation
Physicians: This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Educational Symposia and the American Society of Functional Neuroradiology. Educational Symposia is accredited by the ACCME to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Technologists: This program has been submitted to the American Society of Radiologic Technologists. The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit http://asfnr.edusymp.com or call 1-800-338-5901 regarding the availability of Category A CE credit.

Hardware/Software Requirements
Registrants are required to bring to the workshop their own laptop with a minimum 2G of RAM and 10G of hard disk space. The machines should have preloaded SPM8 and MATLAB software prior to the workshop. DICOM BOLD fMRI practice data sets will be available at the workshop. All registrants will be given instructions on downloading SPM8 and the 15-day free MATLAB license prior to the workshop.

No special educational preparation is required for this CME activity.

BOLD Functional MRI Hands-On Workshop
Inspired by the Sonoran Desert outside Tucson, Arizona, Loews Ventana Canyon opened in 1984 as the world’s first environmentally conceived resort as designated by Architectural Digest, the resort spans 93-acres of pristine desert. The property showcases more than 3,500 saguaro cacti, an 80-foot waterfall, 36 holes of golf and low-rise granite buildings that almost disappear against the Santa Catalina Mountain backdrop. Not one saguaro or any riparian habitat were impacted by the construction of the resort.

Nature remains an important part of the resort today. There’s a half-mile paved trail, “Window Walk,” behind the pool on the mountain side of the hotel that has a butterfly and tortoise exhibit and teaches guests about the Sonoran Desert. The trail also passes the base of the 80-foot waterfall, which flows into a koi pond behind the lobby. Another way to experience the desert in your free time is to explore the mile-long fitness trail which has 18 exercise stations. For serious hikers, there’s a 2.5 mile trail into the eponymous canyon along a boulder strewn trail that rises 1,000 feet above the resort. Two championship golf courses, two swimming pools, full service spa and salon, and fitness center round out the on-site activities.

A total of 398 guest rooms and suites offer magnificent views of the Catalina mountains or golf course and city lights. Stretch out on a king-sized bed, relax in an oversized soaking tub, or indulge in Mother Nature’s nightly star show from the luxury of your private patio or balcony.

Our award-winning chefs capture the unique flavors of the Southwest by using locally grown products and farm fresh ingredients in the Canyon Café, Bills Grill, Cascade, and Flying V restaurants.

Make your reservations as soon as possible as room block may sell out prior to the cut-off date of Monday, February 16, 2015. After this date, reservations will be accepted at the discretion of the hotel, on a space and rate available basis.

RESERVATIONS MUST BE MADE BEFORE FEBRUARY 16, 2015. Room rate is subject to applicable Pima County Room Tax, currently 12.05%. Subject to availability, group rate may be available three (3) days before and three (3) days after the Annual Meeting. Check in is 4 p.m.; Check out is 12 noon. Hotel requires a credit card at time of reservation. CANCELLATION: All “no show” reservations will be billed to the individual’s credit card. The cancellation of guaranteed reservations must be received twenty-four (24) hours prior to arrival in order to avoid a charge equal to one night’s room and applicable taxes.
Membership Categories:

**Member:** radiologist, neuroradiologist, physicist, or scientist who practices or has a special interest in functional neuroradiology

**Associate:** physician, scientist, or radiologic technologist (M.D., D.O., Ph.D., R.T.) with a special interest in functional neuroradiology but who does not fulfill the criteria for **Member** status

**Student:** medical, undergraduate, or graduate student, resident or fellow. Postdoctoral fellows will be considered, if they are within four years of their doctoral degree

Membership Benefits:

- Reduced Registration Fee to attend the **ASFNR Annual Meeting***
- Reduced Registration Fee to attend the **American Society of Neuroradiology** (ASNR) Annual Meeting*
- Membership Certificate (**Member** and **Associate** only)
- Subscription to the **American Journal of Neuroradiology** at the ASNR member rate (**Member** and **Associate** only)- Optional
- Opportunity to join ASFNR Study Groups
- Opportunity to participate in the Scientific and Business Meetings, and activities of the Society
- Serve on standing committees, propose candidates for nomination, vote and hold elected office (**Members** only)

Applying For Membership:
